PUSHER / LOAD PLATE RAIL BEARING UPGRADE

For PSI model 2150, 2200 and 2300 Palletizers.

Overview: Convert from existing lee bearing and support shafts to new rail design with roller bearings.
WELDING is required for this upgrade!

Advantages:

- Extended bearing life
- Minimum maintenance after installation with no need for future adjustment
- Less expensive replacement parts
- Quieter and smoother operation

Included in Upgrade Package:

- Winkel Roller bearings
- Heavy construction guide rails
- All necessary mounting brackets

Installation by PSI field service technicians is highly recommended.

Selling Price Standard Pusher Model - \$4,950.00
Selling Price Standard Load Plate Model - \$8,800.00
