LAYER PUSHER HTD BELTING UPGRADE

Overview: Convert the current chain drive configuration to the new HTD Belt configuration

Advantages:

- Elimination of grease and oil from chains, sprockets and chain travel path.
- Eliminates the possibility of lubricants contaminating the product or marring the bag surface.
- Excellent for food grade operations.
- Reduced maintenance requirements.
- Longer life span compared to chain.
- Quieter operation.

Included in Upgrade Package:

- Gates HTD Belts
- Belt Tensioning Devices
- Belt sprockets and taper-lock bushings

***Installation by our field service technicians is highly recommended.**

Selling Price Standard Model \$6,550.00 **

*Installation costs should be based on one twelve hour day with one PSI provided Field Service Technician and one customer supplied technician, however actual time may vary depending on circumstances. Refer to the current PSI Rate Sheet to calculate hourly rate cost, travel cost, daily expenses, etc. Customer should be aware that requests for services not related to kit installation or plant-related delays will be billed at standard service rates. Call now for more information!

****Price or specifications may change without notice. Please consult with your PSI Service Representative for the most current information.**
