MOTOR DRIVEN LOAD PLATE UPGRADE KIT

Overview: Replace the existing pneumatic Load Plate Drive with a Motor Driven (SEW Eurodrive) configuration.

Advantages:

- Faster, smoother, more efficient opening and closing operation
- Allows smoother transfer of current bag layer to the forming pallet
- Faster closing allows next Layer Push cycle to occur earlier to promote higher bagging rate
- Cleaner operation – no oil mist from the pneumatic cylinder exhaust air
- Reduced air volume requirements
- Enhanced pallet appearance and increased pallet production

Included in Upgrade Package:

- SEW Eurodrive Gearmotor and Brake assembly
- SEW Eurodrive Gearmotor mounting kit
- New Drive Shaft and Bearings
- Electrical update kit (specify NEMA or IEC Motor Starters)
- Required PLC program updates
- Motor and Gearbox warranted for 1 year

Installation by PSI Field Service is highly recommended.

Selling Price w/ motor starters **\$5,320.00 (IEC) \$5,920.00 (NEMA)**

Selling Price w/Variable Frequency Drive Control **\$7,100.00**

* Field Service costs are not included in the selling price.

Note: Panel space for one reversing style motor contactor and motor starter protector will be required to complete this upgrade.

*Installation costs should be based on two twelve hour days (with one PSI provided Field Service Technician) however actual time may vary depending on circumstances. Refer to the current PSI Rate Sheet to calculate hourly rate cost, travel cost, daily expenses, etc. Customer should be aware that requests for services not related to kit installation or plant-related delays will be billed at standard service rates. Call now for more information!

**Price or specifications may change without notice. Please consult with your PSI Service Representative for the most current information.
